

## HCC Hawk Run Health & Wellness Fair Student Art Expo Contest February 17, 2018

The HCC Hawk Run 2018 Student Art Expo Contest taking place during the Health Fair is an excellent opportunity for students to participate in the HCC Hawk Run Health Fair and showcase their thoughts, emotions and artistic skills in promoting health and wellness. In addition, having art pieces displayed in a formal Art Exposition can greatly enhance a student's academic resume (CV). The major goal of the Art Expo is to promote, engage, and empower the artists' audience through health awareness and what it means to the artist personally. The Art Expo aims to generate passionate discussions about each artist's ideas on different health aspects such as; global health, local health, health of the future, health of the past, health issues faced today, medical miracles etc. Each student participant can present one art piece. *The participant does not have to be present during the Art Expo to explain his or her art piece but must write a 100 word or less abstract of how the art piece connects to the Health and Wellness topic they selected for their piece.* The only exception for the artist to be present is if the artist is presenting a Spoken Poetry art piece, in which case the Art Expo committee will make arrangements to have the artist present. The artist is however allowed to be present if they wish to answer any questions spectators may have about the art pieces inspiration and foundation. The Art Expo will be open throughout the entire run/walk and health fair event.

**Art Pieces will be judged and the top three will be awarded prizes.**

## **What topics are appropriate for the Health and Wellness Art Exposition Contest?**

The following health topics are appropriate for the Art Expo:

1. Global Health and how it effects society.
2. Personal Health and how it affects you (the artist) on a personal level i.e. financially, socially, emotionally, & psychologically.
3. Mental Health; the battles from within.
4. Medical Miracles.
5. Health concepts of the future. What are your ideas?
6. Health concepts of the past and how they have shaped the present and the potential future.
7. Health and Fitness.
8. Food: You are what you eat including your health.
9. Personal health issues that have inspired you to get healthy.

The art piece can address any aspect of the above health related issues or other health and wellness related topics can be approved by Professor Elizabeth McCullough, if topic is not on the list. Please see Professor Elizabeth McCullough's contact information.
